DETAILED ACTION

Allowable Subject Matter

1. Claims 1-37 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The examiner has not found an MPEG re-multiplexer module (for cable TV systems) that transmits a plurality of output packet streams from a plurality of input packet streams comprising an input processing portion that receives the plurality of input packets streams and a plurality of packet ID tables, each packet ID table corresponds with each one of the input packet streams; multiple packet buffers for storing the input packet streams; an output processing portion that selectively multiplexes input packets from the multiple buffers and generates at least two output streams; a host controller which controls both input and output processing; wherein the re-multiplexer extracts control messages from the input packet stream and selectively adds control messages to each of the output packet streams in order to produce MPEG-compliant output streams while keeping the processing load manageable [**Applicant's specification, page 14, paragraph 0044 and page 20, paragraph 0064**].

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
